

Interconnected, Surface-Applied Preformed Thermoplastic Logos and Surface Signage for Asphalt and Concrete

Maximize traffic guidance, increase brand awareness, enhance community pride, and promote school spirit with durable preformed thermoplastic horizontal surface signage that is engineered to last 6 to 8 times longer than paint, and even longer in areas with only pedestrian traffic. DecoMark® design and color combinations are virtually endless.

USES AND LOCATIONS

- Custom Logos
- Sidewalk Accents
- Directional Markings
- Informational Markings
- Trail Markings
- Toll Lane Markings
- Streets and Highways
- Business Parks
- Parking Lots
- University Campuses
- Driveways
- and more...

PERFORMANCE-BASED FEATURES AND BENEFITS

- High skid/slip resistant for safety. As material wears, new anti-skid elements are exposed.
- Lasts 6 to 8 times longer than paint with a clean, crisp appearance
- ADA compliant - Pedestrian and wheelchair friendly surface
- Eliminates the maintenance and safety concerns of loose pavers
- Precut, interconnected shapes and colors; easy to handle
- All preformed thermoplastic materials are made at Ennis-Flint's manufacturing facility which is ISO 9001:2015 certified for design, development and manufacturing of preformed thermoplastic. Quality, value and long-term performance are built into the marking. Anti-skid elements are added at time of manufacturing for optimized application at the jobsite.

Whether a basic two-color directional message or a multi-colored custom logo, each design begins with a CAD drawing linked to a stringent manufacturing process. At the time of installation, the applicator will find pre-cut sheets of interconnected material with application instructions and a diagram for proper layout. The sheets of DecoMark® material are easily lifted and positioned onto an asphalt or concrete surface for application with a propane heat torch or large heater.

STANDARD COLORS

COLONIAL BRICK	BRICK RED	DARK BRICK RED	COCOA	OLIVE GREEN	SYG	LEMON YELLOW

TrafficScapes®

Surface Systems for Enhanced Safety

CROSSWALKS • MEDIANS • ISLANDS • ROUNDABOUTS • ENTRYWAYS • LOGOS

TrafficScapes® is a portfolio of preformed thermoplastic pavement marking materials engineered for durability, safety, and aesthetics for the streetscape and traffic calming market. Each product offers its own unique application and performance approach to streetscape projects where shared roadway safety and aesthetic appeal need to work in conjunction.
