

A new perspective to grow your business

# HORIZONTAL SURFACE SIGNAGE

**Offer your customers another way to maximize branding space and enhance guest experience.** Ennis-Flint is the world's leading manufacturer and supplier of pavement marking materials. Discover how companies are incorporating the proven performance of preformed thermoplastic into their exterior branding and signing programs...guidance at drive-thru lanes, accent custom logos, identify parking stalls, direct motorists and pedestrians, enhance entryways, and more. The design possibilities are endless.

## Performance-based Benefits of Preformed Thermoplastic:

- Engineered to last 6 to 8 times longer than paint with clean, crisp appearance
- Material flush across the surface; no tripping hazards
- Skid/slip resistant for safety
- Pedestrian and wheelchair-friendly surface
- 33 standard colors
- Precut, interconnected shapes and colors; easy to handle

Made at Ennis-Flint's facility which is ISO 9001:2015 certified for design, development and manufacturing of preformed thermoplastic; quality, value and long-term performance are built into the marking. Each design begins with a CAD drawing linked to a stringent manufacturing process. At the time of installation, the applicator will find pre-cut sheets of interconnected material with application instructions and a diagram for proper layout. The sheets of DecoMark<sup>®</sup> material are easily lifted and positioned onto an asphalt or concrete surface for application with a propane heat torch or large heater.

# DecoMark®

A TrafficScapes® Solution by Ennis-Flint

*Durable horizontal surface signage built to last*

*Custom Logos, Sidewalk Accents, Directional Markings for Parking Lots at Business Parks, Retail Properties, Universities and more*

Ready to apply out of the box
